A PRAYER FOR THESE DAYS

Lord, make me an instrument of Thy peace.
Where there is hate, may I bring love,
Where there is malice, may I bring pardon,
Where there is discord, may I bring harmony,
Where there is error, may I bring truth,
Where there is despair, may I bring hope,
Where there is darkness, may I bring light,
Where there is sadness, may I bring joy.
O Master, may I seek not so much to be comforted as to comfort, to be understood as to understand, to be loved as to love;
For it is only in giving that we receive,
in forgetting ourselves that we find,
in pardoning that we are pardoned,
in dying that we rise to eternal life. St. Francis of Assisi

The Mid-Winter Conference is to be held March 9 and 10 at the Neil House, Columbus Several members' reservations have been sent in to attend on March 10.

Work on the Americanism topic was given by the Americanism chairman, Mrs. Mae Eckert, and the president, Mrs Alice Neikirk If we only knew the designs Russia has on the world! "America must prepare to fight for their freedom as they have never fought before. It is the only land of hope left."

These words of admonition were quoted as given by a person who had been court-martialed and became a Man Without a Country, "Never dream a dream but of serving your country and your flag as she bids you. though the service carry you through a thousand hells. No matter what happens to you, no matter who flatters you or abuses you, never look at another flag. never let a night pass but you pray God to bless that flag! Let's not be flattered by the promises of a better America through the evils of Communism. Russia is in bondage to this "ism." Do we want that in America? Let's not let Russia beguile America—Russia has never been known to be liberal minded.

ANNUAL DAIRY BANQUET IS WELL ATTENDED MON.

The Fourth annual Seneca Co. Dairy Banquet was held at Clinton Township School, Monday evening, February 19, at 7:30 p. m Three-hundred and fifty people attended the banquet and meeting Max Drake, Mgr of N O B. Association, was toastmaster of the ceremonies

Nelson Price, president of the Seneca County Dairy Service Unit, conducted the business meeting of the organization Mr. Price stated that 30% of the agricultural income to the farmers of the county comes from the dairy enterprise He further stated that the program and banquet is one of the activities conducted during the year by the Seneca Co Dairy Service Unit, which is an organization of dairy farmers in the county, organized for the purpose of bettering the dairy enterprise in the county He stated that other activities during the year included educational meetings, tours, demonstrations and the promotion of production testing and artificial breeding programs Carlysle Walter, Bruce Weiker, and Gerard Daniel acted as tellers for the election at which time Carl Cook, Merle Hunker and Dale Stacy were elected as new directors .

Gerard Daniel, vice president of the Seneca County Dairy Service Unit, presented honor roll certificates from the purebred dairy cattle association to Gordon Feindel, E J Keirns Carlysle Walter, Forest Walter Ralph Stacy, Urban Smith, Fred Bork, Carl Cook, and Saul and Bishop for achieving high average herd production from their herds during the year

Dr Walter A Zaugg, of Bowling Green University, addressed the group His topic was "Hitch hiking on the Hiways of Life" Bryce Weiker, secretary of the Dairy Service Unit then gave the secretary's report at which time he stated that any farmers of the county who are interested in the dairy enterprise may become members of the organization He stated that the dues are $1 10 per year and that the Board of Directors has decided to issue membership cards to all members in 1951 He further stated that the Board of Directors met 13 times during the year in the Agricultural Extension Office

Arvid Danenberg the testing supervisor for the county in giving his report stated that the average production of dairy cows in Seneca County is 5500 pounds of milk and 200 pounds of butter fat and that the cows in the herds tested under DHIA system in Seneca County averaged 9000 pounds of milk per head and 350 pounds of butter fat Mr Danenberg further stated that there is no dairy herd in Seneca County which could not be improved by culling out the low producers He says that this is true of all herds whether they are good or poor producing herds Many farmers are inclined to guess on the production of their cows but according to Mr Danenberg there is no substitute for adequate records on dairy cows He further stated that many dairy farmers are inclined to discontinue testing their cows when the price of milk falls and yet it is his opinion that when the price of milk is lower, the dairy farmers must be more certain and in order to be more certain they must have their actual production records.

The groups was then entertained by Harold A. Pickett of Union City, Ind., a lecturer, humorist and entertainer.

Program committee reported that for the March meeting, a musical program by students of Mr. Jones will be presented. In April, children of the first six grades will entertain So parents, you will be missing something if you stay away!

Meeting at this point was turned over to the program committee. With Harmon Wolfe acting as moderator, a most interesting panel discussion was held on the subject, "What shall we teach our children in the rural schools?" Those participating and their outstanding comments are as follows

1 Dr Quentin Smith, professional viewpoint, believes that sex education should be included in the school curriculum He also stressed pride of achievement.

2. Mrs Rosemary King. Union organizer for the G E plant, said we must teach our children to think for themselves

3 Elliot Meeker, banker, told us it is most important to teach our children how to properly use a checking account, for safety, convenience and keeping of records.

4 Harold Danzinger of Harold's Store, from the businessman's viewpoint thinks we should teach our students a sense of responsibility Also the basic subjects should be stressed since no one can be successful without them Parents must cooperate with the school on all points

5 Samuel Martin, County Supt., among other fine comments, brought to our attention that reading is the basic subject A firm foundation must be laid in the first grade as no student can learn properly the other subjects in later grades without it

Lyrn Jone speaking for agriculture said that practical subjects should be taught and that unless the things taught are not absorbed by each student according to his own ability no diploma should be awarded

After the panel members had stated their opinions open discussion followed Among many subjects discussed were sex education, religious instruction art appreciation, better teaching and grading methods, and awarding diplomas according to merit

This was a most interesting meeting and those of us who were present feel that those absent missed a worthwhile discussion
